PROFILE

I am a Bachelor's degree graduate in Informatics from Ahmad Dahlan University, with competencies in web development, UI/UX design, and data analysis and visualization. I am proficient in various programming languages and technologies, including PHP, Kotlin, C++, Python, Java, JavaScript, HTML, Tailwind CSS, and SQL, as well as data analysis tools such as Tableau and SPSS. I also have experience as a network technician and laboratory assistant, which has strengthened my technical expertise, communication skills, and problem-solving abilities. I am committed to continuously developing my skills and making positive contributions to a professional work environment.
